

Protect, Prevent, Provide

A Visual Aid to support your team

In light of the current situation, it is critical that Plumbing, HVAC and Electrical service providers communicate a sense of safety. One of your fellow Nexstar members, Go Green Plumbing, Heating and Air, offered the idea of a modified agenda card to visually communicate a dedication to safety. Nexstar has adopted that idea and generated a symbol that can be easily added to any agenda. Stickers bearing the symbol are included in this package.

The words “Protect, Prevent, Provide” outline the commitment our members are making.

Protect: Our teams. Our customers. Our communities.

Prevent: Maintain the highest possible commitment to preventing transmission.

Provide: Continue to offer our services to our customers maintaining a commitment to 5-Star Service.

These stickers can be placed anywhere on the agenda card. Digital versions are available on the website. They can also be placed on any other customer facing documents. Video and training support are also available on the Nexstar website.

Best Wishes,

Nexstar Training Team
